

## ARE NOT SLACKERS

PEOPLE OF GLENDALE READY TO ENTERTAIN TRACTOR SHOW VISITORS

Glendale citizens are not slackers, but sometimes they are slack in taking the lead in doing what is best in boosting for projects that give Glendale favorable publicity. By this time everyone who can read and has average good hearing knows that there is to be a National Tractor Show exhibit in the Verdugo Woodlands, Glendale, from September 20th to 26th, and those same people know that there will be thousands upon thousands of strangers visit Glendale during that week. While the claim may be put forth that the average layman has no financial reason for promoting the interest in the Tractor Show, yet he cannot deny that the presence of so many visitors in Glendale that week will go far toward giving this community an excellent chance to make a favorable impression upon visitors, providing the visitors are treated in a courteous and cordial manner.

Hundreds of copies of pamphlets have been sent out by the Tractor Association to all parts of the United States advertising that this show will be held in Glendale and that Glendale citizens will furnish lodging accommodations for all who desire such, and free parking space will also be furnished for those who drive to the show in autos. Now, the question arises: "Is Glendale going to make good in both of these particulars? Are the citizens ready, un-

(Continued on Page 9)

## New Home Buyers

The Goodell home at 345 Patterson avenue has been purchased by a Mr. Kurtz who comes to Glendale from Pittsburgh, Pa., and who is now residing at 516 South Central avenue. The Goodells have purchased the property at 616 North Columbus. Other sales reported by the Barstow agency include the Talley home at 431 West Harvard to Mrs. Longley and the Nourse residence at 367 W. Wilson to Mrs. Pearl Brown of Los Angeles. Mrs. D. C. Candland at 516 Vine has sold her residence to a New York party. The J. M. Spear residence at 1146 East Lexington has been sold by the F. W. Pigg agency to A. E. LeMasters.

## Jamgochian-Donchias

Matthew, son of A. M. Jamgochian of 1905 South San Fernando Road, was married last evening in the Friends Church at Pasadena, to Miss Eugenie Donchias of New York City. The bride came out to Pasadena to visit an aunt who lives at 211 South El Molino avenue, Pasadena. The young people met, loved and now are married. The aunt gave a reception to the bridal party at her home after the ceremony. After a brief honeymoon trip the young couple will make their home in Glendale.

## SISTERHOOD CLASS

WOMEN OF THIS ORGANIZATION IN FIRST M. E. S. S. HOLD MONTHLY MEETING

Members of the Sisterhood ("Ford") class of the First Methodist Sunday School spent Thursday afternoon very delightfully at the home of Mrs. S. B. Warner, No. 429 North Kenwood. After enjoying a social hour together exchanging vacation experiences, a short business session was held, the new class president, Mrs. B. F. Geiger, presiding. Committees on calling, social and missionary service were appointed. The class voted to hold monthly meetings on the second Thursday at the home of some member, entertaining alphabetically. A unanimous vote was given against opening of a pool hall in Glendale.

Refreshments were served by the hostess and her assistants, after which "Blest Be the Tie That Binds" was heartily sung by all before departing for their homes.

Those present were: Mesdames E. Hoskyn, Mark Russell, W. B. Campbell, Caroline Kretschmer, M. Markle, A. S. Pilkington, P. C. Miles, S. B. Van Ossdell, J. B. Moule, Chas. Stein, Kathryn Claycomb, Harwood Bristow, A. P. Torrey, C. R. Hallett, J. R. Turner, L. A. Wagnon, N. C. Jordan, N. E. Hawk, H. M. Carpenter, E. D. Wright, C. E. Russell, D. D. Haines, E. F. Geiger, S. B. Warner, C. M. Crist, Z. T. Boicourt, Berryman and Randall; Misses Nettie B. Campbell, H. E. Noland and M. O. Marsh.

## CITY'S PROBLEMS

MEETING TONIGHT EXPECTED TO BE VERY LIVELY SESSION

An exceedingly interesting session of the Board of Trustees is expected tonight. There are four ordinances to be read for the third time and passed. These are one establishing the grade of Dayton Court, Doran street and Arden avenue; another ordering the opening and widening of the alley between Brand boulevard and the High School grounds, and extending from Harvard to Colorado; another ordering the opening, widening and laying out of Commercial street; and the fourth ordering the opening and laying out of Patterson avenue.

Then the ordinance to allow the establishing of pool rooms in Glendale is to be presented for first reading and discussion. This latter is creating considerable interest among the citizens and much argument, pro and con, is expected over it.

The city manager has an extended report to present on some vital needs of the city, but this may not be reached, as it is expected the other matters will take up a great deal of time.

## Verdugo Park for City?

Beautiful Verdugo Park as it looked before the great flood of 1914 tore the lower part of it to pieces and covered its green carpet with a coating of sand, still dwells in the minds of many Glendale citizens, some of whom have expressed an ardent wish that the city could acquire at least a part of it for a park. It presents a beautiful appearance right now, with all underbrush cleared out, the trees in full leaf providing a grateful shade and the rippling flow of Glendale's pure water supply making music all the day and night. A park of 25 to 50 acres in the shadiest part of the 500 acres comprising Verdugo Woodlands would be one of the greatest assets the city could have in the way of attracting visitors, it is argued, and it would draw many picnic parties from near and far.

## Adds Sales Force

The business of A. B. Lawrence of the Overland agency has increased to the extent that he finds it necessary to put on an addition to his sales force. M. R. Ferguson, formerly of the Stephens agency, is one of the new members, while J. J. Schoonmaker of Albany, New York, and formerly of the Overland agency there will come here as soon as he can find quarters for his family. If present plans are developed the Overland will soon have a new building.

## Mrs. Ryan Home

Mrs. Mary Ogden Ryan arrived in Glendale this morning and is again at her home, 204 Hawthorne, after a vacation trip of more than two months. Mrs. Ryan, who is principal of the Broadway School, attended the meeting of the National Educational Association in Salt Lake City, toured Yellowstone Park, spent a few weeks in Seattle and Portland where she has numerous relatives and was the guest of her daughter in San Francisco for six weeks. She took many interesting trips with her daughter and found the weather delightful in the northern city.

## HAWKINS AND SONS

JOE, WALTER AND NORMAN OF THAT NAME ENJOY HUNTING, FLYING

Joe Hawkins and his son Walter have returned from a several days' hunting trip up in the Coahuila mountains about 30 miles from Hemet. They were for most of the time on the big Ike Parks ranch and Mr. Parks, who is a relative, showed them the best places for game. They got plenty of rabbits and birds but failed to bring down a deer, though they trailed one for some distance. Lieut. Walter Hawkins and his brother Norman were in Escondido yesterday, doing flying for the Mercury Aviation Company, with whom Walter is regularly employed. The occasion was "Grape Day" which Escondido growers celebrate every year on September 9th, Admission Day. Walter did the flying and his brother worked the advertising for it. He is one of the safest pilots in the flying service for he always refuses to do any unnecessary and dangerous "stunts," believing that sooner or later the foolhardy aviator will come to grief and likely lose his life.

## DISORDERS IN IRELAND

1100 STRIKERS IN CORK JAIL; THREE CIVILIANS KILLED AT GANWAY

(Special Service to Glendale Evening News)

DUBLIN, Ireland, Sept. 10.—Disorders in Ireland today seemed to have increased, as news was received that Mayor MacSwiney was steadily growing worse. Eleven hundred strikers in the Cork jail sent the following message to MacSwiney: "We will hold out until death."

Police were conducting reprisals for the murder of policemen and killed three civilians at Ganway today, according to reports. One civilian was tied to a lamp-post and then riddled with bullets after he had shot a constable, it was reported.

LONDON, Sept. 10.—Physicians will attempt to forcibly feed Mayor MacSwiney after he becomes unconscious, it was learned today. Lady Mayoress MacSwiney today said she was unable to "keep alive even a flicker of hope" that her husband would survive.

## TRANSCONTINENTAL AERIAL MAIL

FIRST EASTBOUND PLANE LEAVES SAN FRANCISCO TODAY FOR NEW YORK CITY

(Special Service to Glendale Evening News)

SAN FRANCISCO, Sept. 10.—The first eastbound aerial mail plane left here at daylight today, piloted by Ray Little, former war flyer. The first westbound mail plane was expected to reach here some time this afternoon from New York.

## \$300,000 FIRE AT PUYALLUP

BLAZE WHICH THREATENED TO WIPE OUT WASHINGTON CITY BROUGHT UNDER CONTROL

(Special Service to Glendale Evening News)

PUYALLUP, Wash., Sept. 10.—Fanned by a high wind, fire for a time today threatened to wipe out the entire business section of Puyallup. The blaze, which was brought under control by fire apparatus from Tacoma, Auburn and other towns, caused a loss of \$300,000.

## COX GROWS BITTER

REITERATES HIS PERJURY CHARGES AGAINST LEADERS IN REPUBLICAN CAMPAIGN

(Special Service to Glendale Evening News)

SPOKANE, Wash., Sept. 10.—"It is time to send somebody to the penitentiary," Governor Jas. M. Cox said in a speech here today to a large crowd on the station platform. His declaration came immediately after he had reiterated his charge that Republican leaders were guilty of perjury in their testimony before the Senate campaign investigating committee. "We have laws against perjury and they should be enforced," he added. "I intend to give the Republicans some of their own medicine."

## UPHAM MAKES STATEMENT

SAYS CONTRIBUTIONS TO REPUBLICAN CAMPAIGN FUND WILL TOTAL LESS THAN FIVE MILLION

(Special Service to Glendale Evening News)

CHICAGO, Sept. 10.—Republican campaign funds for national, state, senatorial and congressional campaigns will total \$4,879,000 if the money sought is raised, Fred Upham, national treasurer, testified before the Senate investigating committee today. Upham resumed the witness stand to deny in detail charges of E. H. Moore and Governor Cox that a \$15,000,000 fund was planned.

## ITALIAN EARTHQUAKE CASUALTIES

(Special Service to Glendale Evening News)

ROME, Italy, Sept. 10.—A recurrence of earthquake shocks in the Emilia district in northern Italy were reported today. The shocks were very light, however. More than 500 known dead have been reported from Tuesday's shocks.

## EARTHQUAKE AT RIVERSIDE

(Special Service to Glendale Evening News)

RIVERSIDE, Cal., Sept. 10.—A slight earthquake shock occurred here at 6:13 a. m. today. No damage was reported.

## CRUISER PITTSBURG ASHORE

(Special Service to Glendale Evening News)

WASHINGTON, Sept. 10.—The cruiser Pittsburg has gone ashore three miles west of Libau on the Russian coast, according to dispatches received by the navy department. The U. S. S. Frederick has been ordered to transfer her passengers at Antwerp and go to the assistance of the Pittsburg. The Pittsburg was recently ordered to Danzig to protect American refugees.

## HOOVERS' GUESTS

SEVERAL FAMILIES OF RELATIVES HERE FROM EAST, MORE COMING, SOME TO REMAIN

Mr. and Mrs. C. A. Harshman and their two sons arrived here Tuesday from Muncie, Ind., and are visiting at the home of I. J. Hoover of 1232 East California avenue, Mrs. Harshman and Mrs. Hoover being sisters. Their eldest son, L. Thurston Harshman, a graduate of the Muncie, Indiana, High School and a musician of rare talent, expects to enter the University of California. His cousin, Miss Beatrice Hoover, is engaged in the study of music and is one of the most advanced pupils of Prof. Oeser, well-known composer and instructor of music in Los Angeles and they are enjoying many piano and violin duets. Earl Welch, a brother of Mrs. Hoover, and his family, also another sister, Mrs. M. H. Woodbury, and family, both families from Chicago, are expected daily at the Hoover home. They are traveling through in their machines. The Harshmans experienced a very thrilling electrical storm in Wyoming; it was necessary to tie their machine to a tree as there was a 70-mile gale accompanying the storm. Mrs. Hoover expects another sister from Chicago at Christmas time. All of these families visited Southern California six years ago and now have disposed of all their Eastern business interests and expect to permanently locate here. The Hoovers came to Glendale from Oakland a year ago and Mr. Hoover is a busy building contractor.

## BUYS, SELLS, BUILDS

MANUEL GLASS SELLS PLACE HE BOUGHT IN JULY; NOW IS BUILDING HOME

Manuel Glass and wife, who came to Glendale from Philadelphia, Pa., early in July, buying Miss Sarah Thomas' house at 918 East Wilson avenue, and an adjoining lot, recently sold this property to Dr. Bobbett, who had been living in Pasadena since he returned from army service as surgeon in charge at Rockwell Field, North Island, San Diego. He helped to establish the Arcadia flying field. Living with Dr. Bobbett and wife are his parents, G. M. Bobbett and wife, who recently sold their property on North Louise.

Mr. Glass and family are tenting under the trees at 1101 East Wilson avenue, while he rushes the building of an eight-room house on an adjoining lot for the early occupancy of his family and that of his son-in-law, Lucca Ferriola, who, with the aid of Mrs. Glass is conducting a restaurant at 708 East Broadway. Mrs. Glass was a trained nurse for several years in Pleasantville, N. J., where they owned a large farm home, though living most of the time in Philadelphia. She says she just must be busy to be contented. She is spreading the fame of Glendale by writing nice things about her adopted city to the daily paper in Pleasantville, which circulates quite largely in New Jersey, she says. Mr. Glass expects to continue building operations after he gets the family residence completed.

## Mark of Progress

Only a few years ago there were many criticisms offered because Glendale did not have a Western Union Telegraph station. Now there cannot be any criticisms offered along this line, as we are now given all day service by R. E. Downing, an efficient operator. He is located at 127 North Brand Boulevard, and his hours are 7 a. m. to 12 m., and 1:30 p. m. to 5 p. m., 6 p. m. to 7 p. m., Sundays and holidays 8 a. m. to 10 a. m., and 5 p. m. to 6 p. m. By the way, it would not be a bad plan for you to make a notation of these hours so that you may know just when to find the office open. It is hoped that the time will soon be at hand when Mr. Downing will be furnished with an assistant, and thus enable the office to be open continually from 7 a. m. to 10 p. m.

The Los Angeles Western Union Telegraph Company has 13 branches, of which Glendale is one. Mr. Downing informs us that of these 13 branches Glendale has made the greatest percentage of increase in business in the past year. Hollywood and San Pedro are among the branches.

## Y. M. C. A. WORK

NEW SECRETARIES APPOINTED AND WORK OUTLINED FOR WINTER

The first meeting of the County Y. M. C. A. staff was held last Thursday morning in the district office at Alhambra.

The staff personnel consists of former Secretaries L. C. MacDonald of Azusa, Karl Keeler of Alhambra, office secretary; Miss Emma A. Campbell, also new members: Rex C. Kelley of Glendale, who will have charge of the work in this district, and Neil Locke, successor to R. P. Anderson, as supervising secretary. Plans were discussed and formulated for the resumption of the groups and attendant activities with the opening of school.

The events of immediate importance are as follows: Sept. 17th and 18th will find 30 or 40 of the leading high school fellows of the county in conference at the Triangle Cabin, formulating plans for the winter work, setting goals and helping in shaping the policy for the year. This meeting will be followed by a similar conference on October 2d and 3d for the interested men of the county.

The Southern California Boys' Workers Conference was held in the Tujunga Canyon September 4th and 5th where the latest methods and ideas for boys' work were presented and discussed.

Just 211 boys attended the summer camps this summer under the Y's supervision. Every fellow returned an animated advertisement of the benefits derived and a booster for the four-fold program of the Association. All signs point to the "best and biggest" year of activities yet scheduled.

## Withholding Names

It has been the practice in Glendale for many years for violators of the law in petty affairs to ask that their names not be published in connection with accounts of their misdemeanors. The best guarantee that people can have that their names will not be published in connection with any violation of the law is not to violate the law. The Evening News has been repeatedly criticised for omitting names when giving accounts of misdemeanors of boys who are old enough to know that they have no right to break the laws of the state or city in which they live.

Hereafter it will be the policy of this paper to use its own discretion in the use of these names when the case is one of record in the police court, so boys it is up to you whether you get favorable or unfavorable publicity.

## Banker Is Busy

J. M. Banker has just finished a \$500 addition in the shape of an up-to-date sleeping porch, to the new residence he sold to H. J. Roach and wife a few months ago. It is at 615 Howard. Mr. and Mrs. Roach came here from Hollywood, where they still own a large residence which they rent at a most profitable figure to movie folk, who wanted to buy the place and pay \$400 a week on it. Mr. Banker now has the contract for remodeling the rear house at 123 East Elk avenue. Mrs. Katherine Sooy of Santa Barbara bought that and also the two front houses, one at 121 and the other at 125 East Elk. She will live in the rear house and rent the other two, which she will repaint and put in first-class condition.

## BOUNTIFUL CROPS

GLENDALE STORES STOCKED WITH FINEST FRUITS AND VEGETABLES

That this has been a banner year for all kinds of crops and fruits is evident from reports sent out from all parts of the country. California is no exception to the rule in this respect and the country districts tributary to Glendale give evidence every day of the bounties Nature has lavished on her children. Not only have vine and tree fruits been most abundant, but melons of all kinds, tomatoes, potatoes, cabbages and, in fact, produce of all kinds has never yielded so plentifully as this year. Just now mammoth casabas are brought to our stores by truck and wagon loads, huge potatoes of finest quality are seen in all our grocery stores and cabbages weighing up to 10 pounds are very common. And, considering the high prices of other things, these fruits and vegetables are sold very reasonably. This, together with 18-cent sugar somewhat lightens the housewife's burden.

It requires something of a genius to spend his vacation without spending all his money.

## GLENDALE LOYALTY

TOMORROW, WHEN THE BOY SCOUTS PARADE, IS CERTAINLY THE TIME TO SHOW IT

One virtue of which we people in Glendale are very proud is our loyalty to our own institutions, our own people and to our own organizations, for we are justly proud of all these. Among others, we are exceedingly loyal to our boys, our citizens of tomorrow. Unfortunately, however, we are not always so glad to show this loyalty when this necessitates some effort, or some little sacrifice on our part.

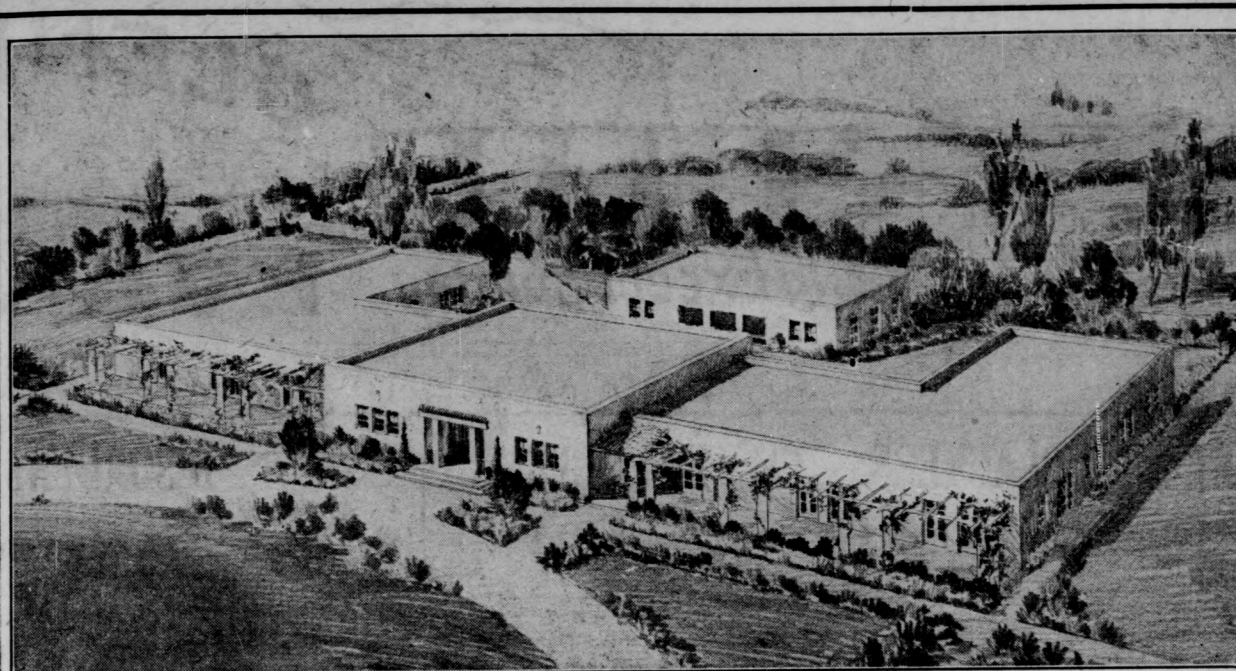

The boys of our Boy Scout organization have always willingly and gladly served Glendale, whenever the opportunity arose, and many of us would be astounded to know the extent of the efforts made and often of the sacrifices which these youngsters have many times made, and often without so much as a "thank you" in return. But they are still glad and willing to serve, for their second law is, "A Scout is Loyal."

Now, tomorrow, Saturday, our Scouts, together with their fathers and the councilors, want the people of Glendale not only to share in their joys, but they want the people of Glendale to awake to the fact that they have a real live organization. They plan, therefore, to open their celebration with a parade at 2 o'clock, starting at Brand and Colorado, including in their march Brand boulevard and Broadway. From Glendale avenue and Broadway they will proceed to their newly completed Camp in the mountains at the foot of Sister Elsie, which they are to open and formally dedicate tomorrow afternoon. So let us all, in spite of what little effort it may require, turn out tomorrow afternoon for the Scout Parade and not only learn a little more about our own Boy Scouts, but show these red-blooded youngsters that we are back of them.

### Commercial Aviation

Commercial aviation seems to be a certainty now, since so many experiments in that line have proven successful. Yesterday a party of seven in one of the powerful new all-metal airplanes, flew to San Diego from Los Angeles, 108 miles by air, in exactly an hour, landed at Rockwell Field, motored to a hotel for dinner, transacted considerable business and then made the return trip in an hour and eighteen minutes. The party was gone just four hours. The new metal airplane is not only safe but swift and powerful.

Thirty days would often do more good than ten dollars.

## On the Last Lap

Through these columns we advised the public to buy stock in this institution. We made several statements regarding the kind of building we proposed, also the manner in which our affairs would be conducted; the time that we intended to begin construction; the fact that we had 140 subscribers in Glendale and vicinity.

To these as well as to all prospective stockholders we are glad to say we are making good on every promise.

Now that vacations are over it is our intention to close up the sale of stock as soon as possible. A number have asked for a last opportunity to get some of this stock before it is all gone. Now is the time and we would urge you to act at once.

You can call at the office of Chas. W. Kent & Son, 131 South Brand Boulevard or telephone Glendale 408 for further information.

### Get Acquainted

In this issue of The Evening News appear the names of the High School teachers and also of the Glendale City School teachers. It is very essential that the patrons of the public schools get acquainted with the teachers who are to supervise and instruct their children. A pupil often does poor work in a school because there is not the right co-operation between himself and his teacher. Almost every teacher who enters upon her profession has at heart the best interests of the boys and girls who are placed in her charge, but often on account of some little misunderstanding there is a lack of harmony, and thus the results obtained are not the very best.

A suggestion that may be given out to parents at this time, which is quite timely, is that they form the habit of visiting the schools. The editor of The Evening News has pledged himself that he will visit the schools in Glendale during the coming year at least half a dozen times.

Teachers have a difficult place to fill, and their work is one of the character that the more encouragement they get from the parents of the boys and girls the better work they can do. It is a known fact that the energy of a teacher is almost unlimited, and all that can be done to cause a teacher to put forth that natural energy in her work should be done, and there is no better way of accomplishing this than for the

## CITY SCHOOLS

SUPERVISORS, PRINCIPALS AND  
TEACHERS ASSIGNED FOR  
YEAR 1920-21

The Glendale city schools open next Monday, September 13, with a full corps of teachers. The new Broadway building, one of the finest grammar school buildings in all the Southland, will be ready for occupancy, though not completed. The finishing touches can be put on it, however, during the early days of school. Some of the old buildings have been repaired and re-painted and the kindergarten buildings added last year are thoroughly furnished for the work. Following is a list of all the members of the executive and teaching force:

### Superintendent

Richardson D. White.

### Supervisors

Albert T. Blanford, physical training.  
Elsa Brenneman, music.  
Josephine Chambers, art.  
William G. Charles, manual training.  
Frances E. Jackson, district librarian.  
Helen T. Payne, penmanship.  
Ramona Reed, agriculture and nature study.  
Cymbel Taylor, domestic science.

### Intermediate School

Manning L. Alvas.  
Edna F. Duffey.  
Carol A. Duncan.  
Alice L. Lookabaugh.  
Clara Midcalf, vice-principal.  
Carrie M. Noble, principal.  
Sally C. Riley.  
Adelia Sallstrom.  
Gladys Sharpe.  
Vera Sinclair.  
Edith Tyler.  
Norman Whytock.

### Cerritos Avenue School

Grade 1—Bertie E. Emery.  
Grade 2—Esther Schremp.  
Grade 3—Olive Hutchison.  
Grade 4—Helen Hitchcock.  
Grade 5—Irene J. McReynolds.  
Grade 6—Ellia E. Gray.  
Grade 7—Vesta D. Bigelow.  
Grade 8—Annie L. Curtiss, principal.

Special—Sarah Merritt.  
Kindergarten—Jessie M. Atwood.

### Columbus Avenue School

Grade 1—Elsie Church.  
Grade 1—Lorraine Mitchell, acting principal.  
Grade 2—Margaret D. Ball.  
Grade 3—Sarah Yarnell.  
Grade 4—Ruth Pawley.  
Grade 5—Zella Robison.  
Grade 6—C. Lorene Fritch.  
Ungraded—Bertha I. Berry.  
Kindergarten—Ina M. Johnson.

### Broadway School

Grade 1—Tennie Mathews.  
Grade 2—Lucile Sparks.  
Grade 3—Henrietta Holliday.  
Grade 4—Matilda M. Speik.  
Grade 5—Hazel E. Williams.  
Grade 6—Mary Q. Ryan, principal.  
Ungraded—Mary Florence, Jenkins.  
Kindergarten—Helen Wright Salisbury.

### Colorado Street School

Grade 1—Ida M. Waite, principal.  
Grade 2—Bessie C. Ross.  
Grade 3—June Hamill.  
Grade 4—Jessie H. Hunt.  
Grade 5—Mary Archer.  
Grade 6—Ethel E. Chase.  
Kindergarten—Lillian N. Brandon.

### Pacific Avenue School

Grade 1—Margaret D. Longley.  
Grade 2—Nellie E. Todd.

## "NO COMPROMISE"

SENATOR PHELAN WILL "FIGHT TO DEATH" FOR JAPANESE EXCLUSION

SAN FRANCISCO, Sept. 10. (United Press)—"War to the death" has been declared against any effort to compromise the Japanese immigration question, by Senator James D. Phelan of California and other anti-Japanese leaders.

Phelan told the United Press that if any treaty compromising with Japan in such a way as to fail to meet the demands of California with regard to restriction of Japanese, were introduced in the senate, he would "fight it to the death" and that he was certain he would have with him all the western senators.

"I do not believe that any compromise has been seriously considered by the state department, however," Phelan added. "I feel certain that the rumors which are in circulation are really based on proposals which the Japanese have made and I believe the state department has or will refuse to entertain them."

Phelan said he already had wired Secretary Colby a protest against any possible compromise.

Phelan was particularly emphatic in his disapproval of granting citizenship to Japanese, which was one of the alleged terms of the reported compromise.

"Citizenship is not a subject for barter," he declared. "It is preposterous to give Japanese citizenship."

## Wearing Furs Now

BY "MARJORIE"

(Written for the United Press)  
NEW YORK, Sept. 10.—Summer fur sales are still waxing hot in this little city, and instead of furs being placed in storage they are taken home for immediate wear. Although the full-length wraps and dolmans of Hudson seal, squirrel, or kolinsky are not much in evidence, some touch of fur is seen upon almost every garment worn upon The Avenue.

Short little coatees or capes in seal, squirrel or fitch are worn extensively over suits and street wool dresses and the popular little choker of last fall's running is back in full force. Fitch, mole, squirrel, or stone marten seems the favored fur for these tiny chokers. Heads and tails are used, and sometimes a bow of airy tulle or maline. The chokers are worn fastened in the back or side-front.

The higher-priced fabric coats are so lavishly trimmed with furs that they often resemble a fur coat trimmed with cloth. Deep bands of beaver, nutria, mole, skunk or squirrel finish the skirt of the coat, form deep cuffs, and the nose-high choker collar, which, when unfastened, drapes about the shoulders as a shawl collar.

Suits use the narrow bandings a bit more, although collars of solid fur are also very good. Fur seems to harmonize with the goods rather than contrast. Thus, a pecan brown duvetyn uses nutria fur of almost a like shade, a taupe velveteen uses gray squirrel or mole, and the dull blues are equally beautiful with a brown, black, or taupe fur.

Fur seems to work its festive art upon every realm of fashion this year. It is made into cords and girdles for the straight street dresses. Little plaques of it cut oval, octagon, or square are set upon dress goods at certain intervals. Dress sleeves and necks are often edged with it, and afternoon and evening silk gowns employ it extensively for very elaborate touches. Marabou in all shades of the rainbow flecks evening gowns. This is very popular in black upon gay hues.

Hats are either entirely of fur or fur-trimmed. The Russian fur turban is shown in seal, beaver, nutria, or raccoon. These turbans are large and tam-like, topped with a large button covered by the material and often dangle some fur tassel.

Fabric hats of velvet, duvetyn, silk or satin, flaunt fur appliques and plaques or bandings. Some of them have "ear rings" of gayly covered fur.

The realm of accessories is very fur-like. Purses and bags show a touch of it in handles or trimmings. There are canes with little animal heads, and beady eyes blink from umbrella tops. Vanity cases and dance bags use either a tiny furry foot, head, or tail some place about them, and even evening combs are topped with a furry banding, while fans of marabou are supplanting the feather fan.

## What Caused the War

The opinion of a man who is prominent in German politics that the telephone caused the war may not be borne out by facts as they were presented before, during and since the world conflict, but it directs attention to an interesting phase of modern life in a striking way.

This German official reasons that in 1914 communication between Berlin and other European capitals was too easy and rapid, and that the diplomats were able to converse with each other instead of writing their communications, and that they did not sufficiently deliberate before speaking.

It is not plain just how this theory

## The Straight Tone Arm Brings Them Straight to You

The Columbia Grafonola brings all the artists whose records you play straight to you in your own home because—

Its Straight Tone Arm insures that the sound waves will develop fully and naturally.

Its Scientifically Correct Acoustic Design gives exquisite clearness and purity of tone.

Its *exclusive* Tone Leaves give you complete and accurate control over tone volume.

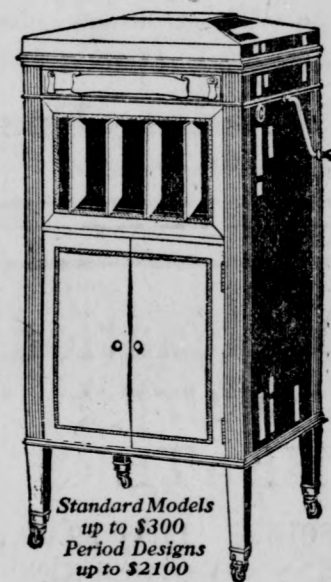

These are some of the simple secrets of the unique realism of the Columbia Grafonola's reproductions.

But, built right into the motor inside its beautiful streamline cabinet, the Columbia Grafonola has another *exclusive* feature which adds to its reproductions the last touch of comfort and convenience—

## The Only Non Set Automatic Stop

Nothing to move or set or measure. Never stops before it should. Always stops at the very end. Just start the Grafonola, and it plays and stops itself.

Ask the nearest Columbia dealer for a demonstration of the stop that needs no setting.

### RAPID GROWTH OF ELECTRIC ENERGY USE MAKES THIS NECESSARY

The rapid growth of electricity in use, its extension, not only into every field in which artificial power, light, or heat had been used formerly but into entirely new fields as well, has resulted in making it perhaps as much, if not more, of an essential in the daily life of the country even than coal.

The principal and most certain source of this great and glowing factor in our development is at present contained in our streams, our waterfalls, our reservoirs and our rivers. When these, for any reason, fail of their usual abundance, we must expect such temporary inconvenience as may result from the present light and power restrictions to follow automatically and as a matter of course. In this case it is not serious. Another season such as the past, however, and it would become so.

It will do no good to say that such a thing has never yet occurred. In the first place we do not know whether it has or has not occurred in the past, our knowledge of California meteorology being restricted to a period of considerably less than a hundred years. And in the second place even though no extended drought has ever afflicted this or any other portion of fertile California, in that fact lies no assurance that none ever will.

Conservation of the present water resources of the state, if not the discovery and development of new ones, is as vital from a power and light standpoint as it is from the irrigation side.

### Azusa Water Question

The State Railroad Commission has been called upon to render a decision in a case at Azusa wherein a Mexican colony is being furnished water by Mr. and Mrs. Rourke. The following account of the affair is copied from the minutes of the Commission, September 8:

Because a colony of 500 Mexicans near the town of Azusa in Los Angeles County depend upon Mr. and Mrs. Thomas J. Rourke's well for water for domestic and irrigation purposes the Railroad Commission today refused to allow the Rourkes to retire from the public utility water business. Instead of authority to quit the Rourkes were given authority to raise their rates to a point that would justify their continuing in the business of selling water. Under the new schedule of rates each family in the colony will be required to pay a minimum annual charge of \$9 a year, and in addition a minimum monthly charge of 75 cents. The latter charge will entitle the consumer to the entire discharge from the Rourke pump for a half hour each month. For the full discharge of the pump the rate is \$2.50 an hour.

It appears that the Mexicans store the water they buy from the Rourkes in cisterns. Passing through the tract is a waste ditch from an irrigation system. When the waste water is running the Mexicans form a bucket brigade and do not use any of the Rourke supply. The waste water is free. When the free supply is exhausted the Rourke supply is called on. This system, according to the Commission, works a hardship on the Rourkes, and the order in the case tells the colonists that if they want the Rourke service maintained for their benefit they must pay for it.

### Gold Coin Disappears

LONDON. (By Mail).—Approximately 500,000,000 dollars' worth of gold coin disappeared from the coffers of the European belligerent powers between December, 1913, and December, 1919, according to statistics compiled for the League of Nations International Financial Conference to be held in Brussels September 24th.

Carefully prepared statements from submitted documents of sixteen European countries show that the total gold in banks and circulation at the beginning of 1914 was the equivalent of \$2,764,300,000. At the beginning of 1920 the total was approximately \$3,240,200,000. The European neutral countries, Holland, Switzerland, Spain, Norway, Denmark, Sweden and the pseudo-belligerent Greece had increased their holdings by \$722,700,000 in gold while the belligerents, Great Britain, France, Italy, Portugal, Belgium, Roumania, Germany and Austria-Hungary showed a loss of \$1,246,800,000.

The United States gold supply which was \$2,930,000,000 at the close of 1913 jumped to \$4,183,000,000 by 1920 while Japan showed a gain of \$823,000,000 over a similar period, or only 430 millions less than that of the United States.

The net increase of gold money and bullion in circulation as money in the five years amounted to \$2,005,100. Although gold production dropped to 80 per cent of normal during the war period, the increase is explained by the fact that many countries, especially those of Central Europe melted up vast quantities of gold plate in order to carry on the struggle.

Advertise it, or advertise for it in the Evening News.

## The Glendale SANITARIUM and Hospital

A health-winning environment where we demonstrate that sound health is the result of right living and where we teach people how to live so that mere existence is a joy.

An institution where natural curative agents such as air, light, heat, water and electricity are used as far as possible in healing disease.

A place where the dietetic regimen is one of the chief factors in the program of health-building. Our diet system is based on half a century of scientific research and our kitchen is a food laboratory, where trained dietitians work. The result is a simple, wholesome bill of fare that is surprisingly varied and pleasing.

### The Glendale Sanitarium and Hospital is Peculiarly Adapted for

#### Rest, Medical Attention and Recreation

### —OUR DINING ROOM—

Is open to the public and many avail themselves of the opportunity to secure a good, wholesome, vegetarian meal more or less frequently. Our meals are served on the European plan and the hours are: Breakfast, 8 to 9; Dinner, 1 to 2; Supper, 6 to 7.

### Special Sunday Dinner

Reserve a Table

### Costly Error

The Evening News proof readers occasionally allow errors to escape them, much to their regret, but none of these have so direful effect as the one noted in the following item:

Errors are the bug-bear of the printer, and despite every precaution they creep into the most high-grade work. An error that cost \$2,000,000 occurred a few years ago in the government printing plant at Washington. It was all due to a misplaced comma. The copy of a particular tariff bill provided that "foreign fruit plants, etc." were to be admitted free of duty, the idea being to encourage the culture of high-grade varieties of fruit trees and grapevines in this country. When the bill was printed "foreign fruit plants, etc.," read "foreign fruit, plants, etc.," and as a result oranges, grapes, lemons, bananas, came into the United States free of duty for a year. The error cost the government just about \$2,000,000 in revenue.

### Joys of Bus-Riding

A maiden entered the St. Louis bus, And firmly grasped a strap, And every time they hit a hole, She sat in a different lap. The holes grew deeper, the jerking worse, Till at last she gasped with a smile, "Will someone kindly tell me please, How many laps to a mile?" —Republic Radio.

"Mother found my little brother putting stockings on wrong side out this morning."

"Yes? What did she do?"

"Turned the hose on him."

"Who was it said that the unexpected always happens?"

"I don't know. Wasn't it somebody connected with the Weather Bureau?"

"So you've been fighting again, Willie?"

"Sure. You don't suppose I could get an eye like this attendin' Sunday school, do you?"

"Say! whatever become o' Kid Hall?"

"Oh! he went from bad to wuss. Quit train robbin' an' opened a cabaret."

No woman should be required to tell how she voted, but she will probably be so proud of it that the secret will out.

## Personals

Henry J. Lawrence is remodeling his residence at 139 South Adams at a cost of \$500.

Mrs. Lee Rankin of Arnett, Okla., is the house guest of Mrs. P. V. Potter, 446 West Broadway.

Spencer Robinson is having a 4-room residence built at 536 East Colorado, to cost \$1600.

C. W. Douthat, who recently sold his property at 609 N. Louise, has moved to 1009 Mariposa.

Prof. A. L. Ferguson is having a 3-room residence built at 518 North Orange, to cost \$1500.

E. L. Robinson and family have moved into the property at 101 N. Central avenue, purchased of L. H. Berry.

Mr. and Mrs. Edwin Egan of San Francisco were guests of James Lyon and wife, 122 West Palmer avenue, last Tuesday.

H. P. Courtney and wife of 217 South Orange, arrived at home Wednesday from a few days' visit in San Francisco.

Mrs. S. A. McGill of Sterling avenue, San Bernardino, is visiting her daughter, Mrs. W. P. McIntosh of 1246 East California avenue.

T. J. Fambrough has re-entered the building business and yesterday took out a permit for the erection of an 8-room residence at 206 North Orange, to cost \$6000.

Arthur W. Wilson is building a 3-room California house and a garage at the corner of Adams and Palmer avenue. The permit calls for an expenditure of \$800.

J. E. Peters and W. H. Sullivan, well-known Glendale residents, have joined the sales staff of the F. W. Pigg real estate agency at 204 East Broadway.

City Marshal Stanley and Officer Collins are trying out their new winter uniforms of blue, which every member of the force will don for the season on September 15.

J. E. Peters, who has gone into the building business, started his first contract yesterday, a 7-room residence at 368 West Lexington Drive, to cost \$5000.

New houses to be occupied in Selvas de Verdugo in the next few days are those of C. E. Chamberlin on Highland Avenue and D. M. McFarland on Hermosita Drive.

Miss Pearl Armstrong, who has been staying in Oakland for some time, came yesterday to live with her father, T. C. Armstrong, conductor on the Glendale & Montrose Railway.

Judge Lowe, wife, son, daughter and grandchild enjoyed an auto drive yesterday to San Bernardino. They went out by the Pothill boulevard and back through Riverside and Pomona.

Mr. and Mrs. Albert G. Cornwell of 343 North Central avenue are entertaining this week. Mrs. Cornwell's sister and family, Mr. and Mrs. William Tatham and son Norman of San Bernardino.

L. E. Berkey and family, residents of Glendale for several years but now living on their own 5-acre ranch at Buena Park, were visiting relatives and friends in the city the first of the week.

Two High School boys, aged 19 and 18, respectively, were arrested last night charged with shooting craps on the grounds. They did not deny their guilt but were shown leniency and simply admonished on their promising solemnly never to repeat the offense.

Charles M. Burr, a former newspaper man in Whiteside County, Illinois, but in recent years connected with a wholesale paint company in Los Angeles, was a caller at The Evening News office this forenoon. He was out to visit C. B. Glasscock of 460 West Elk avenue.

Max Green of the Oakland agency made several sales lately including a sedan to R. D. George of 626 N. Jackson. Touring Oxnards have been purchased by Mrs. Stillman of South Glendale avenue, Albert G. Cornwell of Cornwell & Kelty, W. F. McPherson of Patterson avenue and Charles B. Power of Tujunga.

The Evening News is in receipt of a communication from Mrs. Daisy Hession of Big Pine, California, reading in part as follows: "I am sending six months' subscription to your paper that I may keep in touch with the progress of Glendale where I expect to spend a part of the winter. The climate is wonderful." Mrs. Hession is sending a "sample" of Inyo county fruit grown on her ranch near Big Pine in order that we may compare the flavor of this fruit with that grown in Glendale.

This is certainly a busy time for Alfred F. Priest, one of Glendale's successful architects, who lives on North Central avenue. He is preparing plans for a 10-room double dwelling in Hollywood, a 7-room bungalow in Eagle Rock, a 9-room Colonial in Oxnard, a one-story brick store in Oxnard, a 10-room residence in West Hollywood, a 1-story mill building in Los Angeles and a 16-room flat building to be built in Ventura.

Announcements have been received of the marriage of Miss Harriett Bagg of Des Moines, Iowa, to Lawrence Rice, of Chicago, on August 29. Miss Bagg spent this last summer in Glendale, visiting relatives, Mrs. H. Ryan, Mrs. C. Wykoff and Miss H. Bagg.

Glendale has been given the distinction of having a bunch of honest and fair dealing real estate men, and it is indeed a pleasure to represent the offerings of such a class of men through the columns of the Evening News.

A. L. Baird, who has been taking subscriptions for stock in the new Glendale Research Hospital, is back on the job again after his vacation. Mr. Baird says he has no trouble in interesting people in the hospital now that the foundation for the building is in and work is progressing.

Mrs. H. B. Andrews of 426 Pioneer Drive gave a luncheon to a few friends Tuesday afternoon. Five hundred was played after the luncheon had been disposed of. Those present as guests were Mesdames Bert Woodard, C. D. Thom, R. D. Angelica, C. H. Augustine, C. E. Norton, H. W. Edmonds and Smith.

## City Schools

The Glendale City Schools, of which Richardson D. White is superintendent, including the Intermediate, Cerritos Avenue, Columbus Avenue, Broadway, Colorado Street, Pacific Avenue, Central Avenue, Doran Street, Acacia Avenue and Magnolia Avenue Schools will open for the fall term next Monday, Sept. 13. All children who will be six years of age on or before December 13 will be admitted to school. Kindergartens will be opened at the Columbus Avenue, Colorado St., Broadway, Cerritos Avenue, Pacific Avenue, Central Avenue and Doran Street Schools. A child must be four and a half years old before the end of the third month of school, that is in this instance on or before December 13, to enter kindergarten. Children may enter the kindergarten up until the time they are old enough to enter school.

## Careless Signing

There is a carelessness on the part of many people in signing a petition or protest without a sufficient understanding as to the importance of what they are signing. In the past it has been a very easy matter for anyone in Glendale to pass about with a sheet of paper with a few lines of typewritten heading and get names signed for or against a project that may be favorably or unfavorably up for consideration. In fact, a few years ago the boast was made by a speaker in a public meeting that he could take any list of names signed to a petition and call upon the persons signing and convince them that they should have their names withdrawn from such a petition, or should sign a protest against what they had a few hours previously favored.

What is needed on the part of those who are asked to sign petitions is to take more time to investigate what is up for consideration. Not every question that comes before the people should meet with their approval. But, there are questions which are worthy of consideration, and why not take sufficient time to make a study of these questions and then when a proposition is favored or opposed by a signature it means something, and the person so signing will not be subject to change for any trivial cause.

## Eagle Rock Census

Our neighbor city, Eagle Rock, has received her 1920 census returns which gives her population as 2250, an increase of 350 per cent over the census of 1910. That is a very good showing for Eagle Rock, especially when the large per cent of gain is taken into consideration.

WILLIAM S. HART and GEORGE WILLIAMS in a scene from "THE CRADLE OF COURAGE" A PARAMOUNT PICTURE

## To All Bill Hart Fans:

Here's your chance to see your favorite in the best picture of his career

### "THE CRADLE OF COURAGE"

A tremendous story of intense action; a brand new thriller from Hart's own studio.

Hart as Square Kelley, a former member of a band of thieves, returns from service in France where his buddy was the son of a police sergeant who knows Kelley's record. Kelley's struggles to turn his back on the old crowd and live straight are thrillingly portrayed by this prince of film stars. See this great picture

## Five Hundred Party

Mrs. Henry W. Edmonds of 423 Pioneer Drive gave a card party yesterday to a few lady friends. The decorations were in yellow and blue. Light refreshments were served. Mrs. R. D. Angelica pouring tea and Mrs. Mary Griggs assisting in the serving. Five Hundred was played in the afternoon. Mrs. H. B. Andrews won high score, Mrs. Becker next and Mrs. Henry Stecker third. Those present in addition to the ladies already named were Mesdames Bert Woodard, Grigg, C. D. Thom, C. H. Augustine and McPherson, also Miss Marie Griggs.

## Why No Hotel Here?

At a recent meeting of the Chamber of Commerce of Hemet, steps were taken to organize a company to build a first-class hotel there. In La Jolla Rex Clark has just bought a site on which he proposes to erect a large hotel with an accompanying group of cottages, similar to the plan of the Maryland in Pasadena, all to cost \$300,000. Reading of these one wonders why so great an opportunity as the building of a big tourist hotel in Glendale is passed up by capitalists.

## Times Have Changed

"That times have changed in the past forty years is truly evident," remarked one Glendale man to another yesterday, when commenting on the fact that the High School observed two holidays the first week of school. "That was not like it was when I started on my first week of school in the winter term when I was a boy," remarked one of the old-timers. "You see, we hurried like everything to get through husking corn by the first of December so we could be ready for school the very first day of the winter term," continued the speaker. "There was no vacation then except Saturday and Sunday, until the middle of March, and then it was quit school to help break the colts, preparatory to beginning spring's work which was about April 1," further explained the man who had experienced the cold blasts of winter on the Middle-West prairies.

"But what is the 'dif' anyway," responded the listener, "It will be the same to all a hundred years from now."

Men may argue and men may discuss, find fault and reason, but times have changed and it is just as impossible to live over the habits and customs of forty years ago as it is to navigate an ocean steamer on the Los Angeles River.

## Parking Near Fire Plugs

One very important provision of the traffic ordinance that is persistently violated despite many warnings from police officers is that which forbids the parking of any auto, truck or other vehicle within 15 feet of a fire plug. Recently at a fire on Brand boulevard the firemen had to push for some distance an auto that was standing directly in front of the fire plug they had to use. Arrests will follow, declares the police chief, if these violations continue.

## Kansas Picnic

The fall picnic reunion of the Kansas state organization will be held Saturday, September 11, in Sycamore Grove Park, Los Angeles. Basket picnic at noon followed by brief program.

It is doubtful whether equal pay for men and women workers will ever be fair as long as women can continue to ride the street cars on transfers a week old and men can't.

## FROM WHERE DO WE EAT TO WHEN DO WE EAT

Most people think their food is produced in the corner grocery and meat market, says R. B. Thompson, of Salem, Ohio, in an article entitled, "When Do We Eat?" in the Banker-Farmer, published by the American Bankers' Association.

"It is the lack of understanding of food sources on the part of so many city residents regarding the whole vast problem and fibre production which has made it difficult for rural leaders and the rural press to get across, to the people who really ought to be interested, the very serious food situation which now and for the immediate future confronts them. For I very much fear that some people in the cities will be asking next winter in almost tragic whisper, 'When do we eat?'"

"The city press, especially the daily press, has been until very recently indifferent to the changing balance between agriculture and general industry in America. When a recent survey of the state and federal departments of agriculture in Michigan disclosed that there were 30,300 abandoned farm houses in that great industrial state, and that of the 230,000 men left on the farms a great majority are above 50 years of age; that during the past three years the man power of Michigan's farms has been reduced 46,000, to say nothing of the wives, mothers and sisters who have accompanied the men and boys from the farms to the industrial centers—that when these astounding facts were made known, it should have constituted one of the biggest human interest news stories for the metropolitan press of Michigan and adjoining states since the signing of the armistice.

"But was it so handled? It most emphatically was not, and the hurried urban reader, casually glancing over the half submerged half column, turned very quickly to the more entertaining sporting, society, financial or sensational crime news, wholly and absolutely unimpressed—sublimely trustful of the ability of the corner grocery or meat market to supply his food wants indefinitely.

"And when a similar survey showed 24,000 farm houses vacant in New York state at the very moment when people were crowding into the cities and towns so rapidly that they were compelled to live in crowded apartments and even in tents, the big, outstanding fact which impressed the metropolitan press of the great metropolis of the world was that New York's cities were confronted with a housing problem and a rent-profiteering problem, and that something ought to be done about it"—Riverside Press.

## STILL AT OLD TRICKS

The Huns are not a whit more honest in peace than they were in diplomacy and in war. They are again using deception in trade, and the United States and England are the sufferers from their commercial duplicity.

Official advices received at Washington declare that Germany is dumping its surplus of inferior goods in America and in Great Britain—and accompanying the dumping with deceptive tactics. German exports of this character to the United States are marked "made in England," while the stuff sent to England is inscribed "made in the United States." Thus both American and English products get a black eye, and Germany gets the money.

Such tactics naturally discredit the manufactures of this country in England, and also the manufactures of Great Britain in America. The market for the real products of these countries is injured, while Germany gets rid of goods which it would be difficult to place on the market if properly inscribed with the name of the originating country. It is a despicable trick which ought to meet with failure. There should be some way of circumventing this scheme of the Huns.

## THINGS WHICH STAY

Out of the maze of fads and luxuries so vigorously decried by people who want to see the re-establishment of the common sense which preceded the war will come certain improvements and conveniences which will stay. The conveniences which come with our more riotous method of living will become a permanent part of our life.

The ouija boards and high priced silk shirts will pass, but the universal automobile and ever present phonograph will grow in popularity. While the ouija board will be used for kindling, the piano will be in the care of a tuner. The laborer will come to work again in a flannel shirt, saving his silk shirt for Sunday, but he will not remove his bath tub. The luxuries of the day which can be transformed into the necessities of tomorrow will remain while the passing fancy of an explosive period such as the last two years have been will be buried in the past until another cycle has passed.—Emporia Gazette.

## "HEALTH CHORES"

The schools are carrying physical culture into the country. According to one ambitious rural program, "the teachers will endeavor to make automatic the daily performance of health chores."

Shades of our farmer-fathers! Memories of our childhood! Ah, those "automatic health chores" of yore!

Willie would climb into his clothes at daybreak, bring in a pail of water from the well, chop an armful of wood and start a fire in the kitchen stove for mother to make breakfast. While she was doing it he would go out and water and feed the horses and milk the cows. After breakfast he would gather some vegetables from the garden, do a few errands and then run along to school, where it felt good just to be able to sit. When he got back in the afternoon he would work in the garden and churn the butter and maybe help a bit with the washing, and then when the men came home from the fields, he would help unharness the horses, and water and feed them and bed them down, and carry in some more water for mother, and split some kindling, and catch and kill a chicken or two, and feed the pigs and the chickens and take some things to the neighbors, and eat his supper, and then, if there was nothing else to do, he could go to bed.

And Susie—oh, she would help mother get the breakfast, and wait on the men folks, and then eat her own breakfast and wipe the dishes and run along to school, and when she got back she would sweep and dust and make beds and prepare vegetables for supper and wait on the men folks and wipe the dishes and feed the chickens and set the table for breakfast and help mother with the sewing. And on Saturdays of course there was always some real work, and when there was nothing else doing in particular, there was canning or apple-butter making or taking care of the threshers or some other diversion.

"Health chores," indeed! And the present generation has to have them taught in school, like an arithmetic or geography lesson. The nation must be degenerating.—Long Beach Telegram.

## How He Evaded a Rent Increase

For two years past John Doe of Glendale has been paying a very stiff rental for a small bungalow for his family and when the landlord informed him that there would be an increase he felt that "patience ceased to be a virtue."

By reason of having something like \$1400 on deposit in the First National Bank of this city he was able to make the first payment on a home of his own.

"Systematic saving," he said, "enabled me to take advantage of an opportunity and become independent of landlords once for all."

## ARE NOT SLACKERS

(Continued from Page 1)  
der the direction of the committee appointed by the Tuesday Afternoon Club, to open their homes and furnish accommodations for Tractor Show visitors? And, is the auto parking committee sure that they will be furnished with sufficient money to provide all the necessary comforts that go with an auto parking camp? These are questions that are vital ones and should be given thoughtful consideration.  
It must be remembered that Glendale has never had an opportunity to be so greatly favored as she will be upon this occasion, and there will never have been a time in the history of Glendale when so many people will congregate within the corporate limits of the city. Beach towns subscribe for hundreds of thousands of dollars to entertain visitors every day in the year, and the beach town is indeed considered a back number that does not have a paid band, whose duty it is to furnish music daily. Now, there is not anyone that doubts but the citizens of Glendale are ready to furnish money with which to employ a good band for the entire week of the Tractor Show, and there is not anyone who questions that the citizens of Glendale themselves will enjoy congregating on the street every evening to listen to band music. Of course, there are other forms of entertainment, that will require an expenditure of some money, but will not money be spent in a judicious way if it is spent for entertaining visitors who will leave our city in a frame of mind that will cause them to be anxious to return at a later date, and perhaps make it their permanent home?  
Since you know that the Tractor Show will actually be held in Glendale on September 20th to 26th, it is very important that you get it still more thoroughly impressed upon your mind that it is the duty of the citizens of Glendale to make preparations to entertain the visitors in a suitable manner. And, this responsibility must not rest upon two or three people, but it must rest upon everybody. As stated in yesterday's Evening News, you should make the work of the committees as light as possible, and to do this get in communication with Herman Nelson, Chairman of the Finance Committee, at the Bank, corner of Glendale avenue and Broadway, or with Mr. Kitterman, at the First National Bank, corner of Brand boulevard and Broadway. Ask these gentlemen in what way you are expected to render financial assistance for the purpose of providing ways and means of entertaining the visitors during the Tractor Show. Do not wait for these gentlemen to call you, but make it your duty to call them.

## "No More Poor People"

One manager of a New York department store that deals in comparatively low-priced goods, says that if the new paper suits that are being worn in Europe come to this country, he will not handle them.  
"There are no more poor people any more," he explains. "If offered paper suits at 60 cents, Mr. Poor Fellow would sniff and walk down two aisles where the all-wool \$60 suits were on sale."  
"Everybody's earning a lot and spending a lot. They want to spend it, and take a pride in paying high prices. It is a fact that they would rather pay \$60 than 60 cents."

This, undoubtedly, was the typical American attitude a year ago. There is a current impression that it has changed, and the public has turned thrifty. But perhaps this reform tendency has been exaggerated. The store manager presumably knows what he is talking about. Or perhaps the thrift applies only to the "middle class" instead of the new-rich proletariat.  
The latter view is supported by collateral testimony from New York regarding that same paper clothing. While working people scorn it, such people as students, teachers, stenographers, artists and journalists are said to be keenly interested. It appeals to many of them as not only a possible money-saver, but a labor-saver and a contributor to sartorial variety and comfort. If the thing works, they say, a paper suit or dress can be worn for a week or two and thrown away, and a new one bought. all through the warm weather, for much less than ordinary summer garments would cost, and without any need of dry-cleaning or washing.  
Even many a rich man or woman sits up and takes notice at this suggestion. But the "poor man" and his wife are not much interested. It's a queer turn of affairs.—Exchange.

## Too Many Diamonds

People are buying too many diamonds and not enough alarm clocks, in the opinion of William J. Rose, an official of the Pennsylvania Railroad.  
Conditions in the United States for more than eighteen months could hardly be more tersely expressed than in the above words. Enough persons in this country have been living extravagantly to create a situation of serious concern.  
With the ability of so many thousands to purchase diamonds has come the desire to acquire many other

things that are not in keeping with the ability or disposition to establish a bank account and save something for the inevitable rainy day.

Fortunately, the disposition to indulge in extravagant buying is losing some of its zest, and whether it is due to a change in the mental attitude of the people or to the "tightening up" in financial and industrial circles, the benefits should be appreciated.

There is such a thing as money coming so easily that its value is not properly appraised. The United States is passing through such a period. The money that has been spent injudiciously during the last few months can not be restored, but it is not too late for the beginning of the practice of economy which, if continued after the signing of the armistice as it was practiced during the war, would have been an unmixed blessing to thousands.

## Church Advertising

Announcement that a church in New York City is to erect a big electric sign on Broadway, calling attention to its service, is likely to cause some surprise. A few graybeards may shake their heads in disapproval of the idea of the church resorting to the methods used by chewing gum manufacturers and theaters to advertise their wares and attractions; they will think it undignified. It is an unusual departure, to be sure; but there will be far less criticism than would have been the case if the scheme had been proposed 10 years ago.

Advertising has come to be generally recognized as a legitimate function not only of commercial concerns, but of all organizations which seek the patronage of the public. The advertising art is almost as old as civilization. The ancients used posters and placards freely to announce games and festivals, and to direct attention to the baths and taverns. The walls of the most frequented sections of Pompeii and Herculaneum are covered with notices, painted in red and black. In view of its antiquity it is curious that advertising has been regarded with suspicion until recent years, and even yet is considered unethical by the practitioners of some of the learned professions.

It is a gratifying indication that the churches are living, growing institutions, abreast of the times and in sympathy with the modern currents of thought; that they are resorting more and more to the use of advertising—the powerful Twentieth century method of sending a message to vast numbers of people.

## Bentley's Building Service

Its object—to lend every assistance and encouragement to the builder since it is so necessary that many more homes be built in Glendale.

**We are Proud of the Wonderful Building Record of  
Glendale Since January 1, 1919—Nearly  
\$2,500,000**

It is necessary that this record be sustained and even exceeded the coming year and we are here to help the man who wants to build. Our building service features:

1. Immediate deliveries of all kinds of building materials and careful attention to all orders.
2. Access to our files which contain hundreds of photographs of completed homes accompanied by floor plans. Select one and your contractor may go to work at once.
3. We put you in touch with reliable contractors and help you to arrange satisfactory terms.

## H. S. INSTRUCTORS

NAMES OF MEN AND WOMEN WHO WILL TEACH VARIOUS BRANCHES IN G. U. H. S.

With a much larger enrollment than last year in Glendale Union High School and the additional accommodations not yet ready for classes, teaching starts off under difficulties, yet all are trying to make the best of it. One new instructor said he was used to and liked large classes but when he found himself confronted with 79 young pupils he thought that was really too much of a good thing. There are yet a few teachers to be secured but below is a list of those now enrolled, the \* after a name indicating that this is the first year for the teacher in Glendale High:

Geo. U. Moyses, principal.  
A. L. Ferguson, vice-principal and head of mathematics department.  
Miss Dorothy B. Poppy, English.  
Miss Jennie Y. Freeman, \* English.  
Miss Nora H. Parker, English.  
Miss Aileen Renison, English.  
Miss Mona Gardner, \* oral expression and debating.  
Miss Daisy Wilson, Spanish.  
Miss Bessie L. Field, History and Spanish.  
Miss Fay McEndree, Spanish.  
Miss Edla Magnuson, \* English and Civics.  
Miss Isabel Stephens, Latin.  
Miss Bertha Drabkin, \* French.  
Miss Iva Hunter, History, Civics and Spanish.  
Miss Clara M. Lauderdale, \* History and Sociology.  
Miss E. Maud Soper, History.  
Edgar Boughn, \* Mathematics.  
Miss Jennie McGregor, Mathematics.

Miss Gertrude Mallory, English and Journalism.  
Alfred Cookman, \* General Science, Hygiene, Assistant in Athletics.  
Chas. D. Poore, Chemistry.  
Miss Eleanor Green, Biology, Physiology and Hygiene.  
Mrs. Dora Gibson, Harmony, Orchestra and Sight Reading.  
Miss M. Irene Muller, Interior Decorating, Applied Art and Designing.  
Miss Mary Beth Abbott, Free Hand Drawing.  
Miss Vera A. Holloway, substituting as instructor in Advanced Sewing until regular teacher can be secured, in place of Mrs. Elizabeth Bement, deceased.  
Miss Hilda Smith, Beginners' Sewing.

Miss Ellen J. Hanson, Advanced Cooking.  
Arthur Oliver, Mechanical Drawing.  
G. O. Lockwood, Shop Head.  
C. H. Wright, \* Woodwork and Forge.

Morgan N. Smith, \* Auto Shop.  
Helen Goldthwaite, Commercial Arithmetic and Shorthand.  
Miss Gertrude Ballard, Commercial Course—Shorthand and Typing.

J. Rhea Baker, Commercial—Business English, Commercial Law, Advanced Book-keeping.  
P. A. Fullen, Commercial—Book-keeping, Penmanship and Spelling.

Miss Florence Knight, \* Physical Education—Girls' Gym.  
Normal C. Hayhurst, Physical Education—Boys' Gym.

W. A. Nord, \* Mathematics and Physics.

### Woman Police O. K.

(By United Press)  
LONDON. (By Mail)—After many months of trial work, the Women Police Service has received recognition, and the report of the home office committee recommends that it be placed on an official basis.

They also recommend that the women police should have a statutory right of arrest. This is a point for which the women have been working. Hitherto, the policewoman was only able to remonstrate with a miscreant. Should arrest become necessary she had to call a male constable.

Miss M. S. Allen, the commandant, told the United Press that the women were very well pleased with the report. "There is a permanent sphere for policewomen in every administrative area in the United Kingdom," she said.

"Policewomen trained by us are now working all over the country."

### Admission Day

California celebrated her seventieth birthday yesterday, September 9, but the only reminder of it in Glendale was the closing of High School for the day. No banks nor stores closed and all other business proceeded as usual, of course.

Well-groomed men are all the go in Glendale.

### Lake Tahoe Dispute

SAN FRANCISCO, Sept. 10. (United Press)—With a renewal of the Lake Tahoe wrangle in prospect, Colonel E. E. Winslow, army engineer in charge of rivers and harbors, is preparing for the war department a report on the dispute.

Nevada farmers sought to cut the lake's rim to obtain water needed for irrigation purposes, but resorters voiced protests, contending this would spoil the lake's beauty. Recently a hearing was held in Reno and a compromise was agreed upon. The farmers consented to abandon the plan to cut the rim and instead it was decided to clean the debris from the outlet dam so that more water could flow out.

The cleaning was completed but it did not have the full effect anticipated and now insufficient water has caused a renewal of the controversy.

### Relief for Buddhists

HONOLULU, Sept. 10. (United Press)—No efforts are being made here at present to enforce the recent prohibition ruling at Washington that sake, a rice liquor, should not be used for sacramental purposes in Japanese temples.

Because of the age-old custom of making sake, Chief Deputy George Ashley of the revenue office has requested relief of some sort from Washington officials for the Buddhists and those of other sects.

In 1916 it was held by the United States supreme court that sake was a wine and it was taxed as such. This ruling is now reversed and sake is classed as a brew, which prevents it from being used for sacramental purposes.

### Fruit Growers' Day

SACRAMENTO, Cal., Sept. 10. (United Press)—Today is "Coast Counties Day" and "Fruit Growers' Day" at the state fair. Judging having been completed, the fruitmen will hold a convention this morning to discuss the awards. In the afternoon and evening there will be attractions for the benefit of visitors from the coast counties of the state.

THE EVENING NEWS OFFICE IS OPEN FOR BUSINESS FROM 6:30 O'CLOCK A. M. TO 9:30 P. M. EVERY DAY OF THE WEEK EXCEPT SUNDAY, 139 SOUTH BRAND BOULEVARD. PHONE GLENDALE 132.

Life usually has its compensations—sometimes a millionaire is afflicted with the hives.

## WRECK RAILWAYS

**BANDITS PUT MANY MEXICAN LINES ENTIRELY OUT OF COMMISSION**

By Ralph H. Turner  
(United Press Staff Correspondent)  
TORREON, Coahuila, Mexico, Aug. 28. (By Mail).—The run-down condition of Mexico's railroads probably is better illustrated in Torreon than in any other city of the Republic. In the heart of a wealthy agricultural and mining district, supporting smelters and various other industries, Torreon rightfully earned its position as one of the country's leading railroad centers.

But with the present depreciated condition of the Mexican railroads, Torreon is not receiving just dividends from the network of rail lines that passes through the city.

The conductor operating from Mexico City to Torreon threw light on the situation as his train neared this city five hours late.

"Only one train a day," he explained, "leaves the capital on the northward trip to Ciudad Juarez, via Torreon. That might be sufficient, if there were any local trains. But there are not. And there are scarcely any freight trains, either. As a result, everything possible is shipped by express and this train, the only passenger train on the line, must stop at every station to load and unload merchandise."

There are no local trains, because there are not sufficient cars nor engines. The same explanation goes for the scarcity of freights. Frequently, three or four freight cars are hooked on to a passenger train, causing heavy delay to passengers who may have some concern as to when they reach their destination.

So long as the scarcity of rolling stock continues, so long must a shipper resort to graft if he desires to obtain a car in reasonable time. By the clink of gold within hearing distance of a petty railroad official, the merchant may obtain his necessary freight space. Without this jingle, his chances are materially decreased. Torreon, with its many agricultural and manufactured products, is one of the heaviest sufferers from this shortage of cars. Three American smelters, located in this district, are more fortunate. They own their own cars.

Ten years of revolution naturally have played havoc with the Mexican railroad system. Today it probably has reached its lowest ebb, consistent with any functioning whatever. Cars have been destroyed by rebel and bandit factions, the sides have been torn from others to be used for fire wood, bridges have been destroyed and hastily reconstructed and parts of the roadbed have been greatly damaged. In all this time, little money has been spent for maintenance.

The De la Huerta government, however, has recognized that the railroad problem is one of the most pressing in the entire country and already has taken steps to replenish the equipment in purchases from the United States. There is some discussion, also, of returning the roads to the American bondholders, but no definite decision has been reached.

In one respect the railway service today is a vast improvement over the conditions which existed under Carranza. With the increased pacification of the country in the past two months, it is now possible for the trains to run at night, a risk that was never taken with dynamites abroad. Nine trains arrive in Torreon daily and nine depart, but until the present all the incoming trains reached the city in the evening and the outgoing trains all left in the morning. With the belief that it is now safe to operate at night, the railroad administration plans to rearrange the schedule.

## Hey, Waiter!

A universal view, is this expressed by the Detroit News: "In demanding all-American language on the menu the hotel stewards at the international association convention in Philadelphia are voicing the silent hope of a too long servile public."

In some hotels and fashionable dining rooms it had got to the point where you could only tell what was on the bill of fare by sniffing at the waiter's thumb print. Who has not seen the baffled patron scan his menu with an air of discouragement and then, casting an eye around until he lights on someone already served, exclaim: "Bring me some of that"—knowing only that it is something edible.

Kitchen French and saucepan Italian should not be necessary to a modern education, and no man wants to order his dinner out of a dictionary. To the average man with an appetite strikes the word "steak" neatly printed strikes no vulgar note, and the word "potato" undisguised does not offend him. He regards the meal chiefly as something to eat, and no amount of pastry linguistics has ever outdone the simple charm of the phrase, "rich brown gravy."

Without any particular prejudice against foreign tongues or foreign foods, there has long been a deep yearning on the part of Americans for less showy language and more plain vegetables with their meals.

If the hotel stewards accomplish their object of removing French and

## Sierra Club Ginger Ale

A bottle of SIERRA CLUB GINGER ALE has been described as a delicious, refreshing, stimulating, nourishing drink. That is true, but you will be more interested to know just what it is made of. Here's the contents of a bottle of SIERRA CLUB GINGER ALE:

8 ounces of the purest, coldest water.

1½ ounces of pure cane sugar (under no circumstances is any substitute used.)

Flavored with Jamaica Ginger, and juices of the Orange, Lemon and Lime.

These ingredients are blended to give the beverage a mild and pleasing bouquet and make it sparkling and refreshing.

Sierra Club Beverages have a food value, they digest naturally and stimulate the system. In their manufacture we have tried to get as far away as possible from the old "pop" idea.

Keep a case of SIERRA CLUB BEVERAGES in your refrigerator, including your favorite flavor: GINGER ALE, ROOT BEER, ORANGE, CHERRY, LEMON and GRAPE PUNCH.

A case of 24 bottles delivered to your home  
**\$2.10**

A deposit of \$1.35 on case and bottles is returned to you when these are returned.

# HENRY-BROWN COMPANY

Factory at Wilson and Isabel  
Glendale 309

Italian camouflage from the menus of public eating places they will earn the everlasting gratitude of thousands who, though not versed in foreign lingo, are forced to patronize these dining rooms to satisfy their hunger.

## The Morning Walk

As the vacation season comes to an end and business looms up afresh as the all-important thing in life, Nature tempts struggling humanity with the finest weather of the year for walking. Wise is he who listens to the challenge, takes to his rubber heels, eschews the street cars for a part or all of his trip down town, and starts his day with a walk in the open air.

Not only will the walker reap immediate delights and benefits, but he will lay up a store of health and energy. And the chances are that once he acquires the habit, he will continue it, walking just the same, though the rain drives in his face. From his vantage point of racing blood and springy muscles he will laugh at the poor, shivering wretches whining about the cold and wishing they had money enough to start for the equator.

It may take some changing of the old, indolent morning routine to provide time for a walk on the way to work, but whoever yields to temptation, following the beckoning hand of Nature out into the sparkling air of autumn is sure of his reward.

LOS ANGELES SAN FRANCISCO SACRAMENTO

### Would Starve Rodents

PARIS, Sept. 10.—Poor Paris is particularly unlucky this summer.

She had counted absolutely on a veritable invasion of rich Americans who would spend enough of their good hard dollars in France to cause the rate of exchange to readjust.

As a matter of fact, owing to the lack of steamships, only a very limited number of Americans has come.

And now in place of this very desirable invasion, Paris finds herself invaded with rats. Health specialists and newspapermen who have been peeping into the subject place the number of rats now in Paris at about 8,000,000.

As a matter of fact the rats have all been here for some time past, but no one thought about them until a few cases of pest were discovered about the city. While it was quickly established that these cases were purely sporadic and were easily isolated, it was pointed out that if Paris' 8,000,000 rats should suddenly take it into their heads to see what they could do in the matter of propagating the pest or some other disease,

they might make considerable headway before the Paris health authorities, in a counter offensive, could pull off another battle of the Marne.

As a result of the necessity of putting the rats out of business, Paris is developing a number of health strategists whose plans are as hardy and as promising as those were of Joffre himself at the Marne.

One of the strategists, Professor Bordas, says it is as easy as a pie. He says he can starve out the whole 8,000,000 in a week. His campaign of action is as follows:

"Up to the present time we have never engaged in a serious battle in France against the rats. From time to time we have let loose an occasional offensive but never with any spirit of continuity and never with any appreciable gains. It is now highly important that we take a well-defined plan of defense.

"Now, the quickest and best way of getting rid of rats is not to devise ways and means to kill them, but to devise ways and means to keep them from eating, and the only way to do this is to change the present municipal service in such a manner that the garbage cans which are set out on the sidewalks by each family be collected and emptied at night instead of in the morning.

"Resting, as these garbage cans do, on the sidewalk all night, the rats have both the advantage of time, darkness, and of the absence of people on the street, in which to eat their fill therefrom. If these garbage cans were collected and emptied at night, instead, Paris would be free of rats within a week. They would die of starvation."

While Professor Bordas' Fochsonian offensive against the rats is under consideration the city council has decided to grant the public health department sufficient funds in which to undertake, should it be so decided, some more expensive manner of turning the trick.

### Newsprint Supply

QUEBEC, Que., Sept. 10. (United Press).—The old province of Quebec holds out more hope for cheaper newsprint in the future than any other section of the world, it is believed here with the provincial government's program of re-forestation and protection from fires.

The government plans to plant two pine or spruce trees for every tree cut down and has at present six hydro-airplanes patrolling a vast timber section and is encouraging protection of areas privately owned. Three million pine and spruce trees were planted this year and seven associations of lumbermen were organized for timber development.

"How's this, waiter? You've charged me two dollars and a half for planked steak!"

"Sorry, sir, but lumber's gone up again."

Love, like liquor, may make a man act foolishly, but it does not prompt him to break up the furniture.

The early American Indian was a firm believer in safety—he hid behind a tree when danger was near.

#### MONEY WANTED

We have several clients who desire loans. Good safe investment. Phone Glendale 51. Bentley-Schoeneman Lumber Company.

#### MISCELLANEOUS

FREE DIRT—Have over 600 yds. on Brand Boulevard opposite Masonic Temple. Anyone wanting dirt call up C. A. Wishart, Eagle Rock. Gar. 2178.

### First Dirigible Line

To the West has fallen the distinction of establishing the first dirigible passenger carrying line in America.

The inauguration of regular daily airship service from Los Angeles to Santa Catalina Island by the Goodyear Tire & Rubber Company of California, using its famous Pony Blimp as the vehicle of transportation, brings to the Pacific Coast this signal honor.

The line is known as the Pony Blimp Passenger Service and operates over a 39-mile air line from the Goodyear Air Station to Avalon, the chief city of the Magic Isle. The trip is made in a direct flight of sixty minutes, two hours shorter than the usual journey by rail and water. The aerial jaunt offers opportunity to view Avalon harbor and the entire island at an elevation from which their picturesque beauty may be better appreciated.

Reservations for the dirigible trip are handled at Avalon, Wilmington and Los Angeles offices of the company owning the famous Pacific pleasure and health resort. "Landings" are made on the water and passengers disembark on a large mooring raft in Avalon Bay, from which they are conveyed to shore in speedy motor boats.

Mr. and Mrs. Phil K. Wrigley were the first passengers to make the dirigible trip from Catalina to the mainland. Wrigley is a son of William Wrigley, Jr., famous gum manufacturer, baseball magnate and owner of the island.

The midjet dirigible has become a regular Western institution and its activities have been heralded throughout the entire country. Since its first flight last May it has flown 9000 miles, equal to three transcontinental trips.

Pilots George Hockensmith and Carl Woolam, in charge of the airship, are veteran balloonists, having served during the war at the naval air station near Akron, O., where a thousand balloons of all kinds were made, tested and delivered to the Army and Navy.

The inauguration of this first regular lighter-than-air passenger service marks a new epoch in aeronautics in the United States and its successful progress is being watched eagerly by the friends of aviation everywhere.

Prevailing passenger rates are reasonable and augur successful operation that will permit greatly extended service in the near future.

Goodyear has tendered the use of its aviation field to the city for its use as a municipal flying field. City officials believe the Goodyear field will be widely used by fliers, as there is great activity in flying on the coast.

A Great Bend father has a son of fighting tendencies. The father endeavored to impress upon his mind that he must not fight anyone younger than himself. The boy met a strange boy later, and this conversation took place:

"Hello! How old are you?"  
"Six years."  
"I'm six, too—wanta fight?"

### Boy Stands Guard

The night was dark. A boy stood on the deserted corner at California and Brand as the clock struck one.

"Where are you going, son?" asked I.

"Over to California near Columbus," was his reply.

"And why?"

"Why, dad's building a couple of houses over there and I came out from the city to sleep in the garage and guard the supply of nails we have on hand. Sneak thieves have been carrying them away and none are to be bought. We have \$600 worth of nails and it isn't so much the petty thievery that worries us builders—but where will we get a new supply of nails when they are gone?"

### A Boston Conductor

"Fare!"  
The passenger gave no heed.  
"Fare, please!"  
Still the passenger was oblivious.  
"By the ejaculatory term 'Fare!'" said the conductor. "I imply no reference to the state of the weather, the complexion of the admirable blonde you observe in the contiguous seat, nor even to the quality of the service vouchsafed by this philanthropic corporation. I merely allude in a manner perhaps lacking in delicacy, but not in conciseness, to the monetary obligation set up by your presence in this car, and suggest that you liquidate."

At this point the passenger emerged from his trance.—Exchange.

### Millions Will Be Needed

According to Fred W. Upham, treasurer of the Republican national committee, less than 1,000,000 has been subscribed to date. He agrees with Chairman Hays that the estimated cost of the presidential campaign will be \$2,000,000. It is expected that other millions will be raised for state, senatorial and representative campaigns, and the anticipation is that it will be contributed in small amounts in every city and state. The charge of Governor Cox that there is a big conspiracy on to purchase the presidency with \$15,000,000 falls flat. The weather out in Dayton must have been favorable to breeding brainstorms.

Talk of buying the election is foolish, no matter by whom it is indulged in. But a good deal of money will necessarily be used by both parties to influence the result. This influence will not be exerted in an underhanded manner, but through the channels of publicity. Neither the Republican nor the Democratic managements will have anything like \$15,000,000, either separately or together, but they could use that vast sum very readily and in a perfectly legitimate way. For publicity costs money—much money.

At present a vigorous campaign is on in Maine preparatory to the state and congressional elections in September. Dozens of speakers of national repute have been sent there to discuss the issues. That is one form which publicity takes. Halls must

be hired and the expenses of the speakers paid. Presently the oratorical lightning will strike all of the northern and western and some of the southern states. Expensive work that.

But public speaking is only one shape which publicity takes. There are printed documents consisting of party platforms, acceptance speeches of the candidates, arguments by the spellbinders. Since it is necessary to reach the women this time, the mails will be burdened as never before. Printing and postage can swallow an almost unbelievable number of dollars.

When the committees of both parties have settled their bills for organization costs, the traveling expenses of literally thousands of speakers, have met the demands of the printers and have satisfied Uncle Sam for his mountains of postage stamps, they will find that millions have been needed.—Long Beach Telegram.

### Community Singing

Community singing is to receive a real impetus in California this year through the efforts of the Extension Division of the University of California, according to Director Leon J. Richardson, who today announced plans whereby the Extension Division

can co-operate with any community in preparing, aiding, and presenting programs of national music.

Clubs, schools, community organizations or other bodies wishing to give an entertainment in the music of any nationality—America, England, Scotland and Ireland, Russia, France, Italy, Germany, Spain, the Orient, Scandinavia, Poland—may apply to the Extension Division, which will send a lecturer to the community to give an interesting illustrated talk on the life and customs, arts, and music of the folk of the particular nation.

Aid is also given in the preparation of the musical program. Local talent may be trained along lines suggested by the University Extension Division. If desired, soloists selected free from among the best musicians in California may be assigned by the Extension Division to assist the community and to take the more prominent parts in the song festivals.

Preacher—"Dhat's as fine a goose as I evah see, Brudder Williams. Whar did yo' git such a fine goose?"  
Host—"Well, now, pahson, when yo' preaches a speshul good sermon, I never axes yo' whar yo' got it. I hope yo' will show me de same consideration."

## REPORTED DEATH OF OLIVE THOMAS

RUMORS THAT WELL-KNOWN FILM ACTRESS, WIFE OF JACK PICKFORD, IS DEAD ARE UNCONFIRMED

(Special Service to Glendale Evening News)

LOS ANGELES, Sept. 10.—While no word of the reported death of Olive Thomas, motion picture actress, in Paris had been received by her relatives here today, the Pickfords, sisters of Jack Pickford, husband of Miss Thomas, clung to the hope that reports of Miss Thomas' death were untrue. "It isn't true, is it?" Miss Lottie Pickford sobbed. "Oh, it can't be true. Just yesterday afternoon I received a cable from Jack saying that he was hoping for a change for the better."

The latest word received here from the screen star was as follows, according to Miss Pickford: "Olive's condition still serious. Hope for change for better within 24 hours."

No mention was made of attempted suicide, Miss Pickford said. Mrs. Charlotte Pickford, mother of the trio of famous movie stars, was nearly prostrated by the reported death of Miss Thomas today. While she had received no word direct, she was almost overcome when informed of Miss Thomas' death.

Friends of Miss Thomas refused to credit the suicide theory. While the actress was regarded as temperamental, her friends believed that accidental, rather than intentional, poisoning had been the cause of her illness.

Miss Thomas first achieved fame as a member of Ziegfield Follies chorus in New York in 1916, when she was declared to be the prettiest girl on the American stage by Harrison Fisher. She was born in Pittsburg 24 years ago. Miss Thomas and Jack Pickford were married in 1917. Their recent trip to Europe was declared to be her "second honeymoon."

NEW YORK, Sept. 10.—Reports reached the office of the Selznick Film Corporation here today that Olive Thomas, motion picture actress, died in Paris today. No confirmation of the report was received by the Selznick offices.
